How can we spread good family communication, love, and joy throughout the Deaf Community as role models for the new generation of deaf students with their hearing brothers and sisters to strengthen their sibling bonds for a lifetime of success TOGETHER? How do we do it? What are our challenges?

Let's discuss what are the secrets of successful deaf and hearing siblings who communicate well, enjoy each other's company, share both their worlds and languages easily, and have accomplished "Double Pride" for a lifetime of sibling bonds living in both their Hearing and Deaf Worlds successfully.
